

BOYTEKS

VGUARD MATTRESS TICKING TEST RESULTS

(According to ISO 18184:2019)

RESULTS FOR VIRUS REDUCING PROPERTIES

Test sample	Particle reduction A [\log_{10} pfu]
VGuard sample	$\geq 5,98$

** Tests are performed by an independent and international laboratory (Hohenstein (Germany))*

ASSESSMENT

There is a significant antiviral activity to the test virus under given test conditions for the tested sample, calculated with the control material.

ASSESSMENT CRITERIA ACCORDING TO ISO 18184:2019 TEST METHOD

Value of the antiviral efficacy, A [\log_{10} pfu]	Efficacy of the antiviral property
$A < 2$	No
$2 \leq A < 3$	Small
$A \geq 3$	Significant
